AGE 6

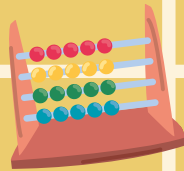

WHERE WE ARE IN PLACE AND TIME

An inquiry into orientation in place and time; personal histories; homes and journeys; the discoveries, explorations and migrations of humankind; the relationships between and interconnectedness of individuals and civilizations, from local and global perspectives.

Boots

Maths & STEAM

Measuring objects is one of the first things we learn about mathematics so we used unifix cubes to measure our toys.

We studied on our sorting skills and learned about patterns using colorful shapes, mini elephants, and connecting blocks.

We had the chance to get to know some inventors like Archimedes and Newton. We did an experiment to explore which objects sink or float. And also we did a magnet experiment to find out which objects were attracted to the magnets.

Child Centered Learning

INVENT A TOY ACTIVITY

Our students became little inventors and used their creativity. They invented their imaginary toys by using recycled materials. They both had fun and reviewed theme based vocabulary.

SEQUENCING

Be the writer of your story! Students tried to create their unique stories by using the story cards that they were given.

COLORS AND INVENTION ACTIVITY

They tried to create an invention by using only colors.

& Let's get cooking!

Face Sandwich

- 1 package of sliced bread (head)
- 1 slice of cheese (face)
- cherry tomatoes (nose)
- cucumbers (eyes or ears)
- olives (eyes)
- red peppers (mouth)
- lettuce (hair)

Slice the vegetables and be creative! Make your own face as you wish.

Popcorn

- Popcorn kernels
- Olive oil
- Salt
- Honey

We popped popcorn and divided it into two. We made salty and sweet popcorn. You can enjoy it with a movie night too!

P.E AND OUTDOOR ACTIVITIES

PERSONAL AND SOCIAL BEHAVIOUR

We tried to highlight the value of physical activity while exhibiting responsible personal and social behaviour that respects self and others.

BODY CONTROL

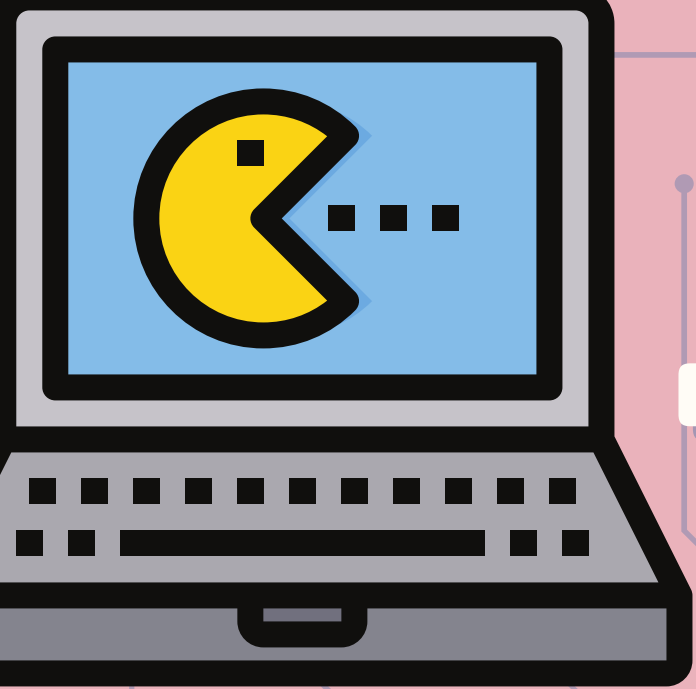

We increased our body control through, workouts and exercises which require us to use our arms and legs simultaneously.

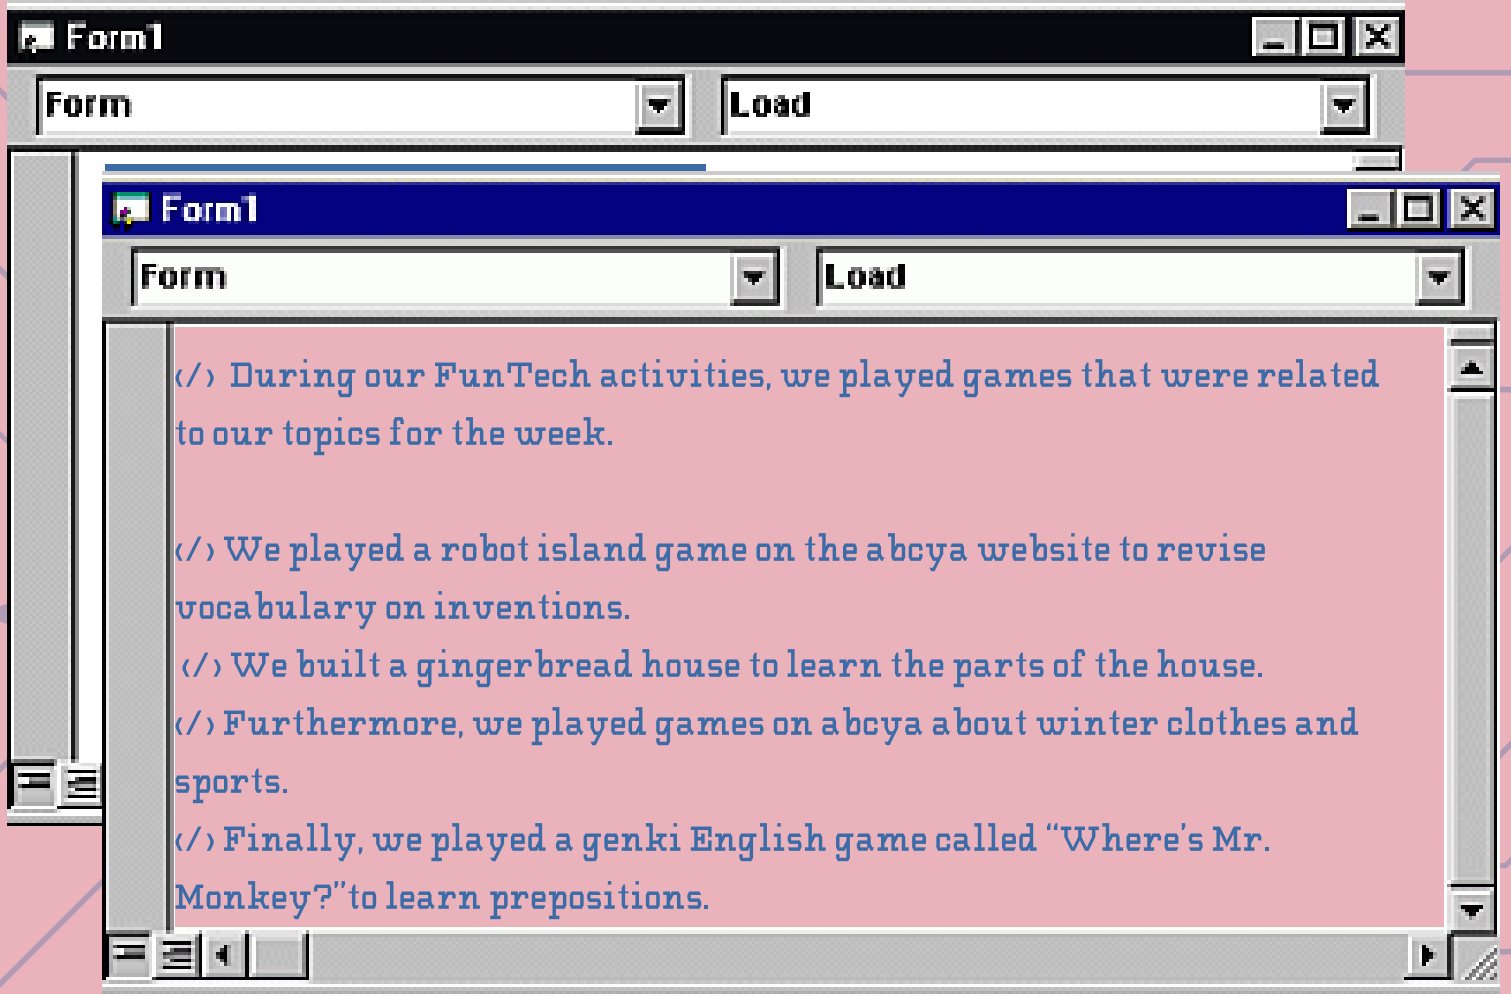

SPORTSMANSHIP

We emphasised the importance of sportsmanship, ensuring kids understand that whether they win or lose they always need to remain respectful.

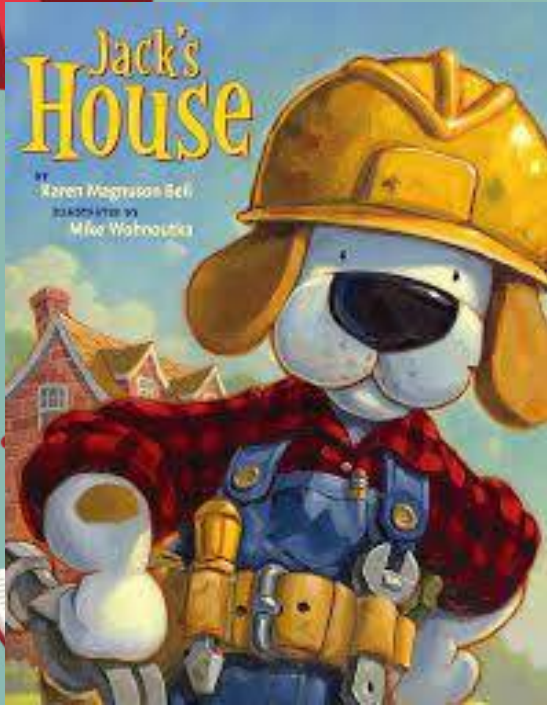

FUN TECH

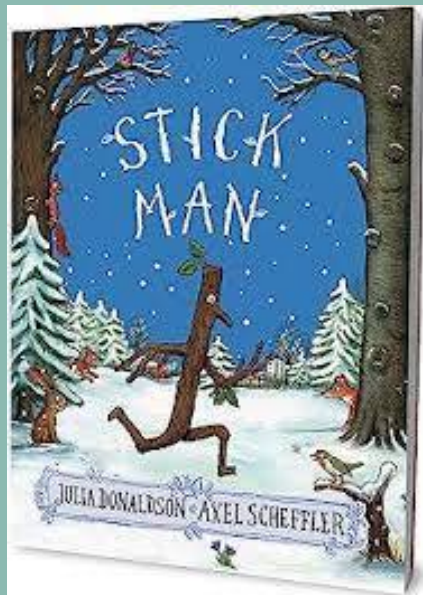

Story O'clock

We reviewed the parts of the house in Jack's house story.

Also the students listened to the story about new year's and revised the new year's vocabulary.

Stories we read; Jack's house, Stick Man Story and Kid-E-Cat New Year's Eve.

Gold Mine

Here are the QR codes to some of the stories and songs we listened to in class so you can enjoy them at home too!
